IP due diligence, as an important part of overall M&A due diligence, is the process of gathering information and analyzing the value of and risks associated with IP and IT assets. A comprehensive IP due diligence review is particularly important in M&A transactions since IP has been and is increasingly becoming an important component of a seller's business and a buyer's acquisition model. The consequences of mismanaging IP due diligence can be severe. Join us to discuss with peers how to avoid pitfalls and ensure a thorough vetting of a seller's assets.

The registration fee is US \$50 for members and US \$75 for non-members. This session includes a buffet luncheon.
